AI Implementation Consultant | LLM Systems Builder | Operations & Finance Leader

Professional Summary

AI Implementation Consultant and operator who designs, builds, and deploys practical AI systems for small businesses, nonprofits, and service-based organizations. Experienced in building chatbots, AI agents, workflow automations, dashboards, internal tools, LLM integrations, and client-facing systems that reduce manual work and improve operational visibility. Delivered 15+ shipped AI and automation projects across healthcare, wellness, real estate, nonprofit, e-commerce, and creator/media. Strong background in finance, business operations, stakeholder communication, and training non-technical teams to adopt and manage new systems. MBA in Finance, founder of a financial-literacy nonprofit, and former CFO of a major Atlanta technology conference.

Professional Experience

AI Implementation Consultant | Intellovate AI Inc | Atlanta, GA | 2025–Present

- Build and deploy AI systems for small businesses and nonprofits, including chatbots, AI agents, workflow automations, dashboards, internal tools, and LLM-powered applications.
- Delivered 15+ shipped AI and automation projects across healthcare, wellness, real estate, nonprofit, e-commerce, and creator/media clients.

- Designed a multi-clinic healthcare practice-management system using Next.js, Supabase, and AI-assisted development workflows, with offline-first functionality projected to save 2,000+ administrative hours annually.
- Built AI-powered lead generation and research workflows for real estate and service businesses, helping teams identify, organize, and act on qualified prospects more efficiently.
- Created analytics dashboards for creator and media clients to consolidate multi-platform performance data and improve visibility into content, audience, and growth metrics.
- Scope client engagements around measurable business outcomes, translating vague operational problems into clear technical requirements, system architecture, and delivery milestones.
- Write runbooks, train non-technical users, and create handoff documentation so client teams can operate and maintain AI systems independently after launch.
- Support clients with AI output verification, workflow testing, quality control, and practical adoption strategies to improve trust and usability.

Founder and Chief Experience Officer | Finance With Phil Inc, 501(c)(3) | Atlanta, GA | 2020–Present

- Founded and scaled a registered financial-literacy nonprofit providing consumer-finance education to students, young adults, and under-resourced communities.
- Organized and delivered 100+ financial-literacy workshops covering budgeting, credit, debt management, investing, career readiness, and financial decision-making.
- Produced educational content reaching 11M+ views across digital platforms, expanding access to practical financial education beyond in-person programming.
- Built the organization's digital infrastructure, including website, analytics dashboard, automated grant pipeline, and online learning community.
- Designed education programs and community initiatives that combine financial literacy, mentorship, career exposure, and practical life skills.
- Manage partnerships, programming, content strategy, volunteer coordination, community engagement, and organizational growth initiatives.

Investment Manager | Karaya Capital Management | Atlanta, GA | 2019–Present

- Evaluate residential development, value-add real estate, and private fund opportunities through market research, deal analysis, and investment performance tracking.
- Analyze portfolio composition, investment performance, market trends, and risk factors to support deal selection and capital allocation decisions.
- Manage investor communications and reporting, translating deal performance, risks, timelines, and market updates into clear stakeholder communication.
- Support capital syndication and deal structuring for private real estate opportunities, including residential developments, value-add flips, and 506(c) real estate funds.
- Maintain high-touch investor relationships through direct communication, performance updates, and ongoing reporting.

Chief Financial Officer | Render Atlanta / RenderATL | Atlanta, GA | 2021–2023

- Served as CFO for a major Atlanta technology conference, leading financial reporting, budgeting, cash-flow planning, and executive financial analysis.
- Owned monthly, quarterly, and annual GAAP financial reporting to improve leadership visibility into revenue, expenses, operating performance, and growth decisions.
- Helped drive 300% gross revenue growth by advising senior leadership on pricing, sponsorship economics, vendor spend, cash flow, and operational strategy.
- Secured \$100K in low-interest financing to support working capital, growth initiatives, and event operations.
- Served on the senior leadership team and advised on financial implications of major business decisions, expansion plans, and operational tradeoffs.

Founder and Financial Consultant | Karaya Consulting LLC | Atlanta, GA | 2018–2025

- Advised individuals, entrepreneurs, and small businesses on budgeting, debt management, business development, digital strategy, and capital readiness.
- Helped clients secure \$3M+ in bank financing by supporting financial preparation, business planning, documentation, and lender-facing materials.
- Supported two e-commerce and SaaS acquisitions totaling approximately \$2.5M through financial analysis, pitch materials, and strategic advisory support.
- Delivered websites, social media systems, ad campaigns, online courses, investor pitch decks, and digital assets for small-business clients.
- Translated client goals into practical business systems, marketing assets, and financial plans that supported growth, funding, and operational clarity.

Graduate Teaching Assistant | Georgia State University | Atlanta, GA | 2019–2021

- Taught Business Analysis (MGS 3100) to 300+ undergraduate students, translating technical and analytical concepts into practical lessons, projects, and applied business cases.
- Improved average exam performance from below 40% to above 80% by redesigning lessons around hands-on projects, varied learning modalities, and real-world examples.
- Built lesson plans, instructional models, and student-engagement tools to reinforce business process thinking, data analysis, and applied decision-making.
- Conducted student-engagement research and supported course delivery, grading, office hours, and classroom instruction.

Selected AI Projects

Healthcare Practice Management System

- Built a multi-clinic practice-management platform using Next.js, Supabase, and AI-assisted development workflows.
- Designed offline-first workflows, administrative tools, and reporting functionality projected to save 2,000+ staff hours annually.

Real Estate Lead Intelligence Workflow

- Built an AI-powered lead scraping and research workflow to help real estate teams identify prospects, organize opportunities, and prepare outreach.
- Reduced manual research time by automating prospect collection, enrichment, and workflow handoff.

Creator and Media Analytics Dashboards

- Built dashboards that consolidate performance data across multiple platforms for creators and media clients.
- Improved visibility into content performance, audience growth, and engagement trends.

Wellness Spa AI Chatbot

- Built an AI chatbot for a wellness spa to improve customer interaction, service discovery, and front-end inquiry handling.
- Supported client handoff with documentation and training for non-technical team members.

Leadership and Community

Chapter President | US-Africa Chamber of Commerce, Atlanta Chapter | 2021–Present

- Lead chapter initiatives focused on entrepreneurship, business development, economic opportunity, and professional development.
- Designed and operate a free, credential-based AI apprenticeship that places an early-career builder on real client work.

Mentor and Program Lead, College Immersion / RISE | Finance With Phil Inc with Leaks Leadership Foundation | 12+ Years

- Mentored students through college readiness, financial literacy, leadership development, and career exposure programming.
- Helped students pursue college pathways and hosted college tours across Georgia, Alabama, and Florida.
- Led RISE (Rising Individual Students of Excellence) at Maynard Jackson High School for approximately five years.
